ELA

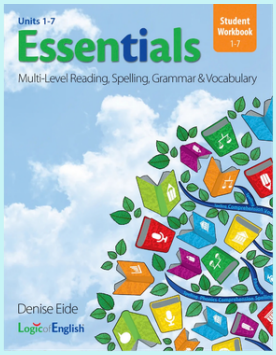

Teacher's Manual

Two-Day Program: M/W Missouri City, T/TH in Pearland, $400/month

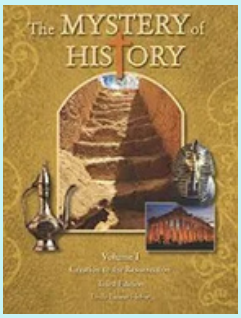

Available at both Missouri City and Pearland locations. Curriculum prices may vary. Prices listed are based on the price at the time of publishing.

Logic of English Essentials Bundle $82: The Mechanics of Words & The Art of the Sentence Fourth grade is the pivotal "bridge" year. We introduce LOE Essentials to solidify spelling rules while "dripping" IEW concepts into the classroom. The Blend: Students master the "Science of Spelling" (LOE) and get a soft introduction to "Stylistic Writing" (IEW) without the pressure of a full composition workload. The Goal: Developing "Spelling Detectives" who can decode any word and "Dress-up" any sentence with adverbs and strong verbs.

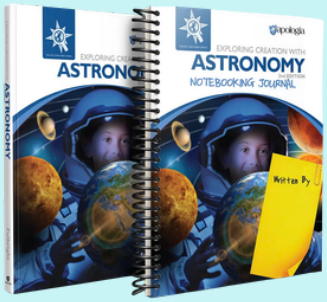

HISTORY

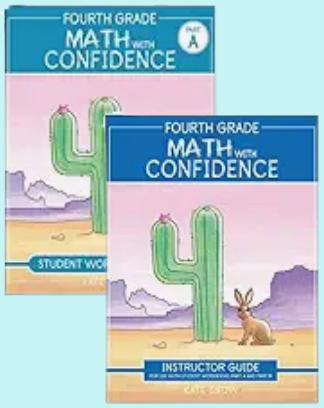

SCIENCE

The Mystery of History Volume 1: Creation to the Resurrection, Third Edition covers Creation to the Resurrection with 108 lessons and more than 400 color images, maps, and fact-filled sidebars. Learn about well-known historical figures such as Aesop, Buddha, Pythagoras, Confucius, Emperor Asoka, Herodotus, Caesar, Hannibal, and Herod. The 500-page Companion Guide download that's also included provides activities for younger, middle, and older students; timeline instructions; mapwork; several assessment options; book list suggestions; and much more!

Apologia Science Astronomy invites students to explore Earth, space, and the universe through hands-on activities, models, and guided discussion. Using Apologia as the curriculum foundation, students study topics such as the solar system, stars, motion, and space exploration while building scientific vocabulary and critical thinking skills. This course emphasizes curiosity, observation, and clear explanation, preparing students for middle school science through engaging labs and real-world connections.

Mathematics: Math with Confidence Series The Instructor Text contains scripted guidance for all lessons, with explanations to show you why and how these math concepts are important. And the workbooks provide your students with a whole year of age-appropriate practice and review for every concept. Multiplication with multi-digit numbers, Long division, Equivalent fractions, Adding and subtracting fractions and mixed numbers, Measuring angles, Multi-step word problems, Area, perimeter, and geometry, Decimals, measurement conversions, and graphs, full color student workbooks and black and white illustrations throughout instructor.
