Rise 11TH Grade Program

Two-Day Program: Tuesdays and Thursdays

Available at the Missouri City campus only. Curriculum prices may vary.

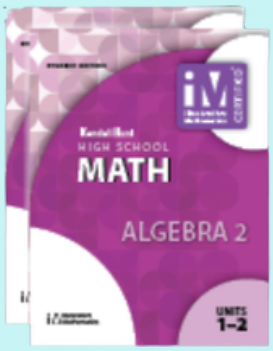

Prices listed are based on the price at the time of publishing.

IEW and Fix It! Grammar Fix It!® Grammar: Level 6 Little Mermaid adds advanced grammar skills to those included in the first five levels. Students explore this classic story of a little mermaid searching for more in life in daily passages. As students hunt for and correct errors, they learn advanced grammatical items, including invisible #4 and past participial openers, transitions, conjunctive adverbs, verbals, active/passive voice, parallelism, and advanced punctuation. Students delve into Bible stories and themes as they learn to write with the Structure and Style® writing method. † Contains distinctly Christian content.

Algebra II or PreCalculus

SCIENCE

Student Workbooks

Textbooks

Algebra II or Precalculus (Illustrative Mathematics) strengthens students' confidence in higher-level algebra through hands-on problem solving and guided instruction. Students learn to think critically, explain their reasoning, and apply math to real-world situations. Topics include quadratic and exponential functions, systems of equations, polynomials, data modeling, and an introduction to advanced algebra concepts that prepare students for college-level math.

Apologia Chemistry and Apologia Physics are offered as separate upper-level science options for Grades 11–12. Each course provides rigorous instruction through hands-on laboratory experiments, discussion, and real-world application as students explore the principles of matter, energy, motion, and forces. Students develop advanced scientific reasoning, academic vocabulary, and lab skills that prepare them for college-level science and STEM pathways. **Algebra is required prior to enrollment to ensure student readiness for quantitative problem-solving. Geometry reccomended for physics.**
