Rise Tenth Grade Program

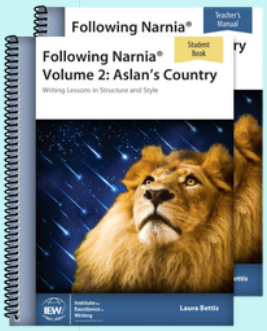

Two-Day Program: Tuesdays and Thursdays

Available at the Missouri City campus only.

IEW and Fix It! Grammar Fix It!® Grammar: Level 5 Frog Prince continues to add concepts to those taught in earlier levels. Students enjoy the growth of a princess through the wise lessons of a frog prince during daily passages filled with humor. As students hunt for and correct errors, they learn advanced grammatical concepts related to verb types, noun functions, and pronoun cases as well as an emphasis on the grammatical jobs of specific clauses and phrases. Experience the enchanted land of Narnia while learning to write with the Structure and Style® writing method. † Contains distinctly Christian content

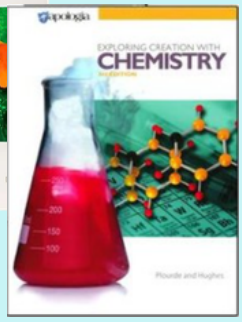

IEW

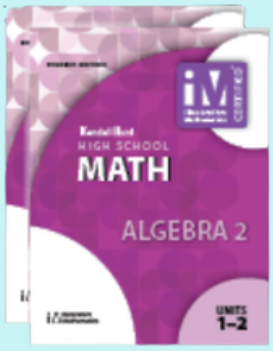

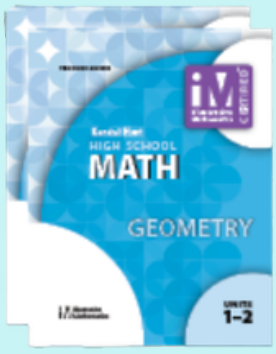

SCIENCE

MATH

Algebra I or Geometry

Apologia Biology introduces high school students to the study of living systems through rigorous instruction, hands-on laboratory experiments, discussion, and real-world application.

OR

Exploring Creation with Chemistry, 3rd Edition, is designed to provide students with a working understanding of chemistry while also preparing them for college-level studies and the ACT. Because math is a big part of chemistry, we recommend that students who take this course be proficient in algebra.

Discovering Algebra I introduces high school students to algebraic thinking through problem-based learning, interactive discussion, and guided practice. Students build conceptual understanding and procedural fluency while exploring real-world applications. Topics include variables and expressions, linear equations and inequalities, graphing, proportional reasoning, systems of equations, polynomials, and introductory functions.

OR

Geometry in the Illustrative Mathematics curriculum engages students in deep mathematical thinking through problem-based learning, rich discussion, and hands-on exploration. Students develop conceptual understanding and procedural fluency as they investigate geometric relationships and apply reasoning to real-world contexts.
